Consultant Learning Certification Program

1 Introduction

Purpose	The purpose of this procedure is to outline the procedure that Kelmac Group® Consultant will undergo to become 'certified' to deliver a Kelmac Group® learning discipline and/or product level and at a relevant Consultant grade. Top management recognizes Consultant Learning certification plays an important part in ensuring the quality of training and development and competency assessment services provided by Kelmac Group®. The Kelmac Group® is a professional services company that provides products and services that aims to deliver "assurance" to clients.
Scope	This procedure describes the learning certification process for developing Consultant(s), starting at potential Applicant identification and selection up to and including initial and ongoing maintenance of certification. This procedure applies to all Kelmac Group® Learning Consultants.
Functional Responsibility	Professional Services

Consultant Learning Certification Program

5 Process Flowchart Notes

5.1 Enquiry/Application

5.1.1 Expression of interest to become a Kelmac Group® Learning Consultant delivering Kelmac Group® learning products

The Applicant who wishes to apply to become a Kelmac Group® Learning Consultant is required to initially contact Operations within the Kelmac Group®.

Kelmac Group® Operations will verbally outline the Kelmac Group® Consultant Learning certification program requirements including Applicant documented information, see 5.1.2 below and will supply the Applicant with a copy of the Non-Disclosure Agreement [NDA].

5.1.2 Applicant Documented Information

The following is the minimum documented information the Applicant is required to supply to Kelmac Group® Operations:

- CV or Résumé
- Academic and professional certificate(s)
- Audit Log or History (recent 3 years)
- Continuous Professional Development (CPD) Log or History
- Training & Development delivery Log or History
- Consultancy Assignment Log or History
- Details of Professional Affiliations, e.g. Auditor Registration

For the above documentation, namely 2 to 7, the Applicant needs to supply the relevant supporting documented information **for each product discipline** where approval as a Kelmac Group® Learning Consultant is sought. For the above logs, we require the most recent 3 years history.

If incomplete Applicant documented information is supplied by the Applicant, this will delay the initial review by the Kelmac Group® and the Kelmac Group® reserves the right not to review Applicant documented information until such time as the complete list of Application documented information is supplied. Hence the responsibility for supplying full and accurate Application documented information lies with the Applicant.

The Applicant will be required to sign a copy of the Kelmac Group® NDA and return the NDA together with the above documentation to Kelmac Group® Operations.

The Applicant documented information will initially be reviewed by the Kelmac Group® Operations or Professional Services to verify completeness and fit with the Kelmac Group® business needs. The Kelmac Group® reserves the right not to process an expression of interest from an Applicant if the above documented information is incomplete or not a practice requirement at this point in time, reference the Kelmac Group® capacity planning procedure. In all cases, the decision will be openly communicated to the relevant parties including the rationale.

Where the Applicant documentation is complete and a good 'fit' with the needs of the Kelmac Group® practice, the documentation shall be forwarded for the initial evaluation of Consultant Learning competence.

Consultant Learning Certification Program

5.2 Initial Evaluation of Consultant Competence

5.2.1 Initial Evaluation

The initial evaluation of Consultant Learning competence is conducted by the Professional Services team within the Kelmec Group®.

The Applicant documented information will be assessed to see if the Applicant meets the Kelmec Group® initial Consultant learning competency criteria, see Consultant competency development framework in Kimble Business Systems. It is Kelmec Group® policy to assess the Applicant based upon the current version of ISO/IEC 17024 and relevant/current versions of Scheme Owner/Training Certification Body documented information.

As part of the initial competency evaluation process, the Applicant may be interviewed by one or more members of the Professional Services Team. The interview may be completed in person or via the use of online video conference technology. Records of the interview may be maintained.

It is the Kelmec Group® policy to require all Applicants to provide a 'video' or 'live' presentation demonstrating the Consultant's Learning competence using a variety of participative management learning styles, teaching aids, assessment tools, learner evaluation and feedback. In all such cases, the Applicant is required to provide written self-declaration/assurance the content management is the intellectual property of the Applicant.

In all cases the video or live presentation should be of 90 to 120-minute duration. The video or live presentation session should address the following competency areas, namely:

- Planning and Organization
- Presentation Skills
- Management of group exercises
- Management of Feedback
- Learner Assessment

In addition to the 'video' or 'live' presentation, the Applicant may be required to demonstrate they meet specific discipline competency requirements, e.g. course specific competency requirements. This policy will apply to each discipline where the Consultant is claiming competency. Where necessary, the Kelmec Group® may require the Consultant during the initial evaluation to attend an interview, where the Applicant's level of competency of specific requirements can be established by an Expert panel provided by the Kelmec Group®.

Based upon the review of the 'video' or 'live presentation' and course specific competency requirements an initial competency assessment will be made by the Kelmec Group® on the Applicant's 'fit' with the Kelmec Group® delivery methodology for each discipline where the Consultant is claiming competency. The results of this initial competency assessment will be presented to and discussed with the Applicant.

Where the Applicant is deemed not to be aligned with the Kelmec Group® delivery methodology and/or course specific competency requirements, the Applicant will be required to complete relevant and recommended training courses at the Consultant's expense.

To meet Kelmec Group® Consultant Learning certification program requirements, Applicant's need to be a 'good fit' with Kelmec Group® practice needs, meet all or most of the Kelmec Group® initial Consultant competency requirements, and demonstrate they are likely to successfully complete the Kelmec Group® Learning Consultant Certification Program in a timely and efficient manner.

Records of the initial evaluation of competence shall be maintained in the Applicant/ Consultant file and the Consultant Competence file, updated, if appropriate.

Consultant Learning Certification Program

5.2.2 Identification of Initial Certification Path

Following the initial evaluation of Consultant competence, the Professional Services team will identify the initial certification path and communicate the recommendation to the Consultant.

The following competency criteria will guide the decision-making process.

A. Applicant delivers CQI-IRCA or equivalent accredited course within the last three years

If the Applicant's initial evaluation demonstrates Kelmac Group® Learning competency requirements have been met in full, the Applicant may progress to the Consultant Learning Certification Program.

If the Applicant's initial evaluation of competency demonstrates competency requirements have been partially met, the Applicant will be advised of the additional steps to be considered and/or gain entry to the Kelmac Group® Consultant Learning Certification Program.

1. The Applicant meets all Kelmac Group® Learning competency requirements with the exception of relevant course specific competency requirements.

In this scenario, a further evaluation of the Applicant's course specific competency will be undertaken. The Applicant will be advised of the outcome and the Applicant will be expected to demonstrate they can fulfill the course specific competency requirements within a timely and efficient manner. The Applicant may be considered and/or allowed to participate in the Consultant Certification Learning Program, but the Applicant will not become a Kelmac Group® certified Consultant per discipline until they fully fulfill Kelmac Group® Consultant learning competency requirements and relevant Scheme Owners/ Training Certification Body competency requirements.

2. The Applicant meets all Kelmac Group® Consultant Learning competency requirements but does not meet the relevant Scheme Owner/Training Certification Body Auditor competence requirements.

Where deemed necessary and with the approval of the Applicant, a review with the relevant Training Certification Bodies must be undertaken to establish the best Auditor certification path to take. The Applicant may be allowed to complete the next approval step, but the Applicant will not be allowed to deliver a Kelmac Group® solo class until they fully fulfill Kelmac Group® Consultant Auditor competency requirements and relevant Scheme Owner/Training Certification Consultant auditor competency requirements.

In this scenario, a review and discussion with the Applicant will be undertaken and the Applicant will be expected to demonstrate they can fully fulfill Kelmac Group® Consultant auditor competency requirements in an agreed time.

The Applicant may be considered and/or allowed to participate in the Consultant Certification Learning Program, but the Applicant will not become a Kelmac Group® certified Learning Consultant until they fully fulfill Kelmac Group® Consultant Auditor competency requirements.

3. The Applicant meets all Kelmac Group® Consultant competency requirements with the exception of presentation skills and in particular Participative Management and the Learning Cycle.

In this scenario, the Applicant will be required to attend a Kelmac Group® recognized and certified Train-The-Trainer course, plus the Applicant may be required to attend the Kelmac Group® class as a Learner to gain an appreciation of the Kelmac Group® product and delivery methodology.

Document Controller
Professional Services

Page 10 of 27

Consultant Learning Certification Program

B. The Applicant has no experience of delivering a Scheme Owner/Training Scheme Body or equivalent accredited course

In this scenario, the Applicant will be required to fully meet the Kelmac Group® Consultant competency requirements including the relevant Scheme Owner/Training Certification Body Consultant/Competency requirements in full.

5.2.3 Psychometric Testing

The Kelmac Group® policy is to complete psychometric testing for all Consultants wishing to become Learning Consultants with the Kelmac Group®. The intent is to ensure the Kelmac Group® Learning Consultant is likely to fulfill Kelmac Group® behavioral requirements, is likely to operate to the highest industry integrity standards and relevant Scheme Owner/Training Certification Body Code of Practice. Results from the psychometric assessment tests will be shared with the Consultant. Psychometric testing may not be completed on Applicants. This is at the discretion of the Kelmac Group®.

Records of the Applicant psychometric test shall be maintained in the Consultant file and the Consultant Competence file.

5.2.4 Risk Assessment

Kelmac Group® shall conduct a risk assessment review of the Applicant, reference the Kelmac Group® risk management standards procedure.

The purpose of the risk assessment is to establish the residual risk of the Applicant not meeting the full Kelmac Group® competency requirements within a timely and efficient time. All risk assessment shall be conducted in accordance with the current version of ISO 31000.

A record of the risk assessment and confirmation of the Applicant's participation in the Kelmac Group® Consultant Learning Certification Program and Applicant/Consultant file shall be maintained.

Records of the Applicant/Consultant risk assessment shall be maintained in the Applicant/Consultant file and the Consultant Competence file.

5.3 Consultant/Consultant Agreement

5.3.1 Consultant Agreement

The Consultant agreement process will be coordinated by Operations within the Kelmac Group®.

The Consultant is required to sign a Consultant agreement with the Kelmac Group®. The Consultant Agreement is essentially a document that requires the Applicant to confirm to Kelmac Group® policies, processes and procedures. The Applicant is also expected to sign a written contract of employment with the Kelmac Group®. The contract of employment will define and document the employment terms and conditions including remuneration and expenses etc. The initial Consultant Agreement shall be valid for a period of one year but may be extended for a further three-year period by agreement.

At the time of signing the Consultant Agreement, the Consultant is required and agrees to be available to the Kelmac Group® and deliver a minimum of four class deliveries offered over a twelve month. The four class deliveries offered can be for a single product discipline or multiple product disciplines and product levels.

Records of the Consultant Agreement and Contractor of Employment shall be maintained in the Applicant/Consultant file and the Consultant Competence file.

5.4 Kelmac Group® Initial Consultant Learning Certification Program

5.4.1 Initial Consultant Learning Certification

The Professional Services team will complete a document review of the Consultant co-delivery documentation and where necessary will consult with the Master or Lead Consultant before arriving at a decision regarding the Consultants ability to fully fulfill Kelmac Group® Learning Consultant competence and performance criteria.

The Professional Services team will communicate the result of the Consultant co-delivery assessment and where the Consultant demonstrates they fully meet the Kelmac Group® Learning Consultant competency and performance standards, Operations shall be informed.

Records of the Consultant Co-Delivery documentation review shall be maintained in the Consultant file and the Consultant Competence file.

Operations within the Kelmac Group® will update the Consultant's file and grade on the Kelmac Group® website. Operations will also communicate the change in Consultant learning grade to the relevant Consultant, if relevant.

Where the Consultant does not fully meet Kelmac Group® Learning Consultant competence and/or performance standards, the Consultant will be informed and asked to complete root cause analysis, reference the Kelmac Group® Root Cause Analysis Methods procedure and a Consultant Development Plan. The root cause analysis and Consultant Development Plan must be approved by the Professional Services Team. Copies of the root cause analysis and Consultant Development Plan will be forwarded to Kelmac Group® Operations.

It is Kelmac Group® policy; the Consultant will have a further additional peer assessment review within the next three-month time period. This peer assessment review will fulfill the Consultant's peer assessment review for the initial twelve-month time period.

Furthermore, the Consultant's performance will continuously be monitored by the Professional Services Team, see section 5.8 of this procedure. The Professional Services Team may enlist the support of Operations to assist with the monitoring.

Records of the Consultant co-delivery review results and Consultant Development Plan shall be maintained in the Consultant file and the Consultant Competence file.

5.5 Kelmac Group® Consultant Learning Certification Program

5.5.1 Intent, Process and Entry Criteria

The Consultant seeking entry to the Kelmac Group® Consultant Learning Certification Program must fulfill the following requirements:

- Submit full documentation and records (right first time)
- Successfully fulfill initial Kelmac Group® Consultant competency criteria
- Sign a Kelmac Group® NDA
- Successfully complete a 'video' presentation or 'live' presentation
- Successfully complete a product specific competency requirement
- Successful complete a Kelmac Group® nominated psychometric test, where relevant
- Sign a Consultant Agreement with the Kelmac Group®
- Sign a written contract with the Kelmac Group® (Only applies to Applicants directly employed by the Kelmac Group®)

It is only at this stage will the Kelmac Group® formally confirm and communicate the Applicant's participation in the Kelmac Group Consultant Learning Certification Program.

Consultant Learning Certification Program

5.6 Kelmac Group® Orientation Workshop

5.6.1 Intent and Process

The formal starting point, in the Kelmac Group® Consultant Learning Certification Program is the Kelmac Group® Orientation Program. Consultants are required to participate in a Kelmac Group® orientation workshop or a 1:1 Kelmac Group® orientation program. The orientation workshop maybe of two and a half day's duration especially if a group of Consultants are participating in the Kelmac Group® Orientation Program. For individual 1:1 Kelmac Group® orientation program, the duration is typically 1 day. The Kelmac Group® reserves the right to restrict the number of Consultants who attend the Kelmac Group® orientation workshop. Typically, all workshops will be limited to eight Consultants. The Kelmac Group® 1:1 Kelmac Group® orientation program is most likely to happen for Kelmac Group® full-time, branch or contract employees where the contract employee is under the direct control and supervision of the Kelmac Group® and the number of consultants means the delivery of a Kelmac Group® orientation workshop is not economical.

The Kelmac Group® will periodically schedule Kelmac Group® orientation workshops. The Kelmac Group® Consultant orientation workshops will be delivered virtually.

The intent and aim of the Kelmac Group® orientation workshop is to familiarize Consultants on the:

- Kelmac Group® learning product
- Kelmac Group® learning product delivery methodology
- Kelmac Group® relevant learning policies, processes and systems
- Kelmac Group® learning development tools, e.g. website, LMS, Zoom/MS Teams, mimeo

During the Kelmac Group® orientation workshop, the Consultants will be given access to the Kelmac Group® relevant product and relevant policies, processes and systems prior to attending the Kelmac Group® orientation process. In all cases the supply of Kelmac Group® products, processes, procedures etc. will be delivered digitally. The relevant learning product, e.g. Consultant Manual will be licensed to the individual Learning Consultant. The Learning Consultant will also have access to the relevant product discipline teaching aids during the Kelmac Group® Orientation Workshop.

The Consultant will complete a series of further assessment tests (live presentation and interview by an Expert panel during the Kelmac Group® orientation workshop. The Consultant will be notified of the assessments in advance and the Consultant is required to come prepared to deliver a 'live presentation' and/or interview by an Kelmac Group® Expert panel by discipline during the Kelmac Group® orientation workshop. It is Kelmac Group® policy is to video record the Consultant 'live presentations' during the Kelmac Group® orientation workshop.

At the end of this stage of the Consultant Orientation workshop, the Consultant who successfully completes the workshop will receive a Kelmac Group® training certificate of completion. The Kelmac Group® Consultant orientation workshop training certificate will qualify the Consultant to be graded as a Learning Consultant In-Training for a specified product discipline and product level under the direct supervision of a Kelmac Group® Master

At this stage the Learning Consultant is invited to upload their profile and documentation in the Kelmac Group® website. Digital Marketing will provide support and coaching and shall verify and ensure the information provided is of the quality and style required.

In an exceptional case, where the Consultant has not successfully completed this workshop, the Kelmac Group® will re-assess the Consultant's suitability to continue on the Kelmac Group® Consultant Learning Certification Program.

Records of the Consultant assessments, videos, live presentations and successful completion of the Kelmac Group® Consultant Orientation workshop shall be maintained in the Consultant file and the Consultant Competence file.

Consultant Learning Certification Program

5.6.2 Consultant Grades

The Kelmec Group® operates the following Consultant grades.

Consultant In-Training: The Consultant has successfully demonstrated they fulfill the Kelmec Group® initial Learning competency requirements to deliver a Kelmec Group® course under the direct supervision of a Kelmec Group® Master or Lead Consultant within one or more disciplines, and product level(s), specified by the Kelmec Group® orientation workshop training certificate.

Consultant: The Consultant has successfully completed the Kelmec Group® Consultant co-delivery process. The Consultant may deliver solo a Kelmec Group® course in one or more product disciplines, and product level(s) specified by the Kelmec Group® orientation workshop, co-delivery training certificate(s) and class delivery records.

The class may not exceed ten (10) Learners. To maintain the Consultant grade, the Consultant shall fulfill additional competency and performance criteria, see the Consultant maintenance of certification section of this document.

Lead Consultant: The Consultant has successfully satisfied the Kelmec Group® they meet the learning competency requirements to lead and manage a Kelmec Group® course in one or more product disciplines and product levels, specified by the Kelmec Group® orientation workshop, co-delivery training certificate(s) and Kelmec Group® class delivery records. The Lead Consultant can deliver a class together with a Consultant in-Training or Consultant for up to 20 Learners maximum. The Lead Consultant may also be responsible for the coaching and mentoring of a Consultant In-Training or Consultant under the Kelmec Group® Consultant Learning certification program.

The Lead Consultant may also be authorized to conduct a peer assessment of an Consultant In-Training or Consultant.

To maintain the Consultant grade, the Lead Consultant shall fulfill additional competency and performance criteria, see the Consultant maintenance of certification section of this document.

Master Consultant: The Consultant has successfully satisfied the Kelmec Group®, they meet the competency requirements to continuously exceed Kelmec Group® competency and performance standards in one or more product disciplines and product levels, specified by the Kelmec Group® orientation workshop, co-delivery training certificate(s) and Kelmec Group® class delivery records. This is the highest-grade Consultant within the Kelmec Group®. The individual is also highly respected by both their peers and industry. The Master Learning Consultant can recommend a change to the grade of any Consultant at a lower grade. It is unlikely that any Kelmec Group® Consultant of any grade would attain the Master Consultant grade if they are not delivering a minimum of 6+ classes in one or more products disciplines and levels within a twelve-month time period.

To maintain the Consultant grade, the Master Consultant shall fulfill additional competency and performance criteria, see the Consultant maintenance of certification section of this document.

Consultant Learning Certification Program

5.7 Kelmac Group® Product Delivery/Co-Delivery Process

5.7.1 Intent and Process

The Kelmac Group® co-delivery process will be conducted by the Professional Services team within the Kelmac Group®. Assistance will be sought from Operations in the co-ordination and scheduling of the co-delivery events, reference the training course scheduling and administration procedures.

The Consultant is expected to actively participate in the Kelmac Group® co-delivery process. As a general rule the Consultant is expected to co-delivery up to two classes under the supervision of a Kelmac Group® Master or Lead Consultant. Over the duration of the two co-delivery classes, the Consultant is expected to successfully deliver **all** sessions within the relevant Kelmac Group® product discipline and product level. A Consultant In-Training is expected to only co-deliver 50% of the total course program in any one class delivery.

For example, during the first co-delivery class, the Consultant is expected to deliver the even number sessions, i.e. sessions 2,4,6 etc. During the second co-delivery class, the Consultant is expected to deliver the odd number sessions, i.e. sessions 1, 3, and 5 etc.

As soon as the co-delivery class is confirmed the Consultant will receive a secure, digital and personalized copy of the Kelmac Group® Consultant Manual.

The Consultant is expected following two successful co-delivery classes, to become a Kelmac Group® Consultant. Where, for whatever reason the Consultant is deemed to have not successfully completed the co-delivery process, the Consultant will be informed immediately and given an opportunity to respond and appeal the decision, if necessary. Equally the Consultant may be asked to conduct a root cause analysis, reference the Kelmac Group® root cause analysis methods procedure and develop an Consultant Development Plan. The root cause analysis and Consultant Development Plan must be submitted to Kelmac Group® Operations. The root cause analysis and Consultant Development Plan will be technically reviewed by the Kelmac Group® Professional Services team. Ultimately the Professional Services team must sign-off on the root cause analysis and Consultant Development Plan.

Internally the Kelmac Group® will review all such incidents and re-assess the risk, reference the risk assessment procedure. The Kelmac Group® will communicate the results of its risk re-assessment to the Consultant, where relevant. The Kelmac Group® reserves the right to terminate the Consultant's participation in the Consultant Learning Certification Program at this stage if the results indicate the Consultant is unlikely to successfully complete the program and become recognized as a Kelmac Group® Consultant.

At the end of the co-delivery classes, the Kelmac Group® will review the relevant records and if everything is in order, the Consultant can be fully recognized as a Kelmac Group® Learning Consultant. Digital Marketing will update the Learning Consultant grade on the Kelmac Group® website

5.7.2 Product Delivery/Co-Delivery Process Competency and Performance Standards

During the co-delivery process the Learning Consultant will be expected to demonstrate competence in both delivery and application of Kelmac Group® policies, processes and procedures.

The Master and/or Lead Consultant will use the Consultant delivery review form to verify the degree the Learning Consultant competence and performance standards have been met during both co-deliveries by the Consultant.

From a delivery performance, the Consultant is expected to fulfill Learning Consultant Performance Standards, as specified in section 4.7.2 of this procedure. It is Kelmac Group® policy to video record the Consultant delivery during a Kelmac Group® product delivery on a representative sample basis.

Consultant Learning Certification Program

During the product delivery/co-delivery process, the Master or Lead Consultant will inform the Trainee Consultant of the result of the Consultant delivery review, based upon the information recorded in the Consultant delivery review form.

Where the Consultant is deemed not to fulfill Kelmec Group® competence in both delivery and application of Kelmec Group® policies, processes and procedures a root cause analysis together with an Consultant Development Plan shall be completed by the Master or Lead Consultant and Trainee Consultant, reference the Kelmec Group® root cause analysis methods procedure. The root cause analysis and Consultant Development Plan must be submitted to Kelmec Group® Operations. Kelmec Group® Operations will inform the Professional Services team of the availability of the information. Ultimately the Professional Services team must sign-off on the root cause analysis and Consultant Development Plan.

The Professional Services Team shall review the Consultant delivery review form, [root cause analysis, Consultant development plan, and Consultant video, where relevant] and product delivery/co-delivery records. If Kelmec Group® performance standards have been fulfilled the Consultant will be recognized as a Kelmec Group® Learning Consultant and the Consultant will be informed and congratulated by the Kelmec Group® CEO. The Kelmec Group® Professional Services Team will inform Operations of the results of the review.

The Professional Services team will also re-assess the risk, reference the risk management standards procedure. The Professional Services team will communicate the results of its risk re-assessment to the Consultant, where relevant. The Kelmec Group® reserves the right to terminate the Consultant's participation in the Consultant Learning Certification Program at this stage if the results indicate the Consultant is unlikely to successfully complete the program and become recognized as a Kelmec Group® Learning Consultant.

Operations within the Kelmec Group® will update the Consultant's file and grade on the Kelmec Group® website and issue a Kelmec Group® Consultant certificate to the Consultant. Operations will also communicate the change in Consultant grade to the relevant Consultant, if relevant.

Records of the Consultant delivery review form, product delivery/co-delivery record, root cause analysis, risk assessment and Consultant Development Plan review record shall be maintained in the Consultant file and the Consultant Competence file.

5.8 Kelmec Group® Learning Consultant Maintenance of Certification

5.8.1 Intent and Process

It is Kelmec Group® policy all initial Consultant certifications as a Kelmec Group® Learning Consultant shall not exceed twelve months. Thereafter and by agreement, the Consultant appointment may not exceed three years, but can be extended for another agreed time period by both parties. The Consultant certificate issued by Operations and the Kelmec Group® website maintained by Digital Marketing will reflect the current Learning Consultant's grade at all times.

5.8.2 Performance Standards

During the Consultant appointment period, it is the policy of the Kelmec Group® to monitor the on-going performance of all Kelmec Group® Learning Consultants. Learning Consultant performance shall be monitored and measured on a continuous basis, using the following performance criteria:

- Learner Feedback
- Learner Class Success Rate
- Class documentation turn-around-time
- Consultant documentation completeness
- Class documentation integrity

Consultant Learning Certification Program

- Peer Assessment

At a minimum Learner feedback is expected to be satisfactory and ideally exceptional

The following are the minimum performance standards a Trainee Consultant/Consultant/Instructor are expected to fulfill.

Trainee Consultant/Consultant
Class deliveries > 4 per year in at least one discipline
Learner Class Success Rate >88%
Class Documentation Turn-Around Time [TAT] <10 days
-Consultant documentation completeness - 100%
Class documentation integrity - 100%
Peer Assessment results - 80%
Performance Review Rating – Fully Successful

For a more complete understanding of the above terms, see the glossary section of this document.

It is unlikely the Learning Consultant will be able to improve and/or maintain their Learning Consultant status or grade if they are delivering less than four classes in one or more product disciplines over a twelve-month time-period.

Learning Consultants will receive performance feedback on a timely manner via the Kelmac Group® website. In exceptional cases, e.g. where the performance of the class is not satisfactory, the timing of Learner feedback may take a little longer as face to face meetings or conference calls may need to take place to receive and validate Learner feedback.

5.8.3 Investigations

In an exceptional case where the class results are deemed unsatisfactory, it is Kelmac Group® policy to investigate all incidents/events. Learning Consultants are expected to participate fully and honestly in the investigation. The investigation shall be conducted in a timely manner.

The Learning Consultant will be informed of the investigation immediately and at the end of the investigation, the Learning Consultant will be informed of the result and given an opportunity to respond.

Various remedy's and sanctions are open to the Kelmac Group®. The following is a list of the primary sanction; however other actions may in exceptional cases be required. Before any such actions are taken a meeting of top management team shall be held. The Learning Consultant may or may not be informed of the initial investigation results, depending upon the incident/event in question. The Learning Consultant will be informed of the final results as soon as practical.

The Learning Consultant will be invited to respond to the results of the investigation. Where the results are uncontested, the Learning Consultant will be asked to complete a root cause analysis, based upon the Kelmac Group® root cause methods procedure and an Consultant Development Plan root cause analysis and corrective and preventative action. The root cause analysis and Consultant Development Plan and/or root cause analysis and corrective and preventative must be reviewed and approved by the Professional Services Team.

Consultant Learning Certification Program

Copies of the root cause analysis and Consultant Development Plan corrective and preventative action plan will be forwarded to and maintained by Operations in the Consultant's file.

- **Termination.** Termination will only be considered in an extreme case, e.g. gross misconduct, significant damage the reputation of the Kelmac Group® and/or Scheme Owner/Training Certification Body requirements etc. Reference the Kelmac Group® Malpractice policy
- **Suspension.** The Learning Consultant may be suspended, namely not permitted to deliver a Kelmac Group® class for a defined period of time, usually during the duration of an investigation by the Kelmac Group® and/or Scheme Owner/Training Certification Body. Reference the Kelmac Group® Malpractice policy
- **Demotion.** The Learning Consultant grade may be reduced for an agreed period of time, agreed by both parties. The aim is to give the Learning Consultant reasonable time to implement agreed improvements in competence and ultimately performance
- **Improvement.** This is similar to a minor non-conformity in the audit context. It means generally, the Learning Consultant delivered to the Kelmac Group® standards and procedures however an isolated and non-significant finding was identified and both parties agree improvement in competence and performance is required

5.8.4 Peer Assessment Process

Learning Consultants will be subject to an annual peer assessment for each product discipline as specified by the Learning Consultant grade status. The peer assessment will be conducted by a Kelmac Group® Master or Lead Consultant. The peer assessment schedule will be published on an annual basis on the Kelmac Group® website. Peer assessment reviews are planned and based upon the Kelmac Group® website data.

The Kelmac Group® reserves the right to conduct an unplanned peer assessment. Generally, an unplanned peer assessment may be completed where there is significant doubt regarding the competence and/or performance standard of the Learning Consultant and/or when a significant complaint and/or feedback have been received from an interested party regarding the Learning Consultant competence and/or performance standards.

The rationale for the peer assessment review is to ensure the standard of delivery continues to be in accordance with Kelmac Group® standards and criteria and for consideration of awarding/renewal of the Learning Consultant grade. It is generally expected the Learning Consultant performance will be deemed satisfactory and the Learning Consultant's grade will be maintained and/or upgraded.

All Learning Consultant Peer Assessment reviews shall be conducted using the Learning Consultant Delivery Review Form.

The Learning Consultant's certification status and records shall be updated and a new Learning Consultant certificate issued in a timely manner by Kelmac Group® Operations.

5.8.5 Continuing Professional Development (CPD)/Continuing Education Units (CEUs)

The Learning Consultant is expected to complete a minimum of 15 hours Continuing Professional Development (CPD) or Continuing Education Units (CEUs) per annum per product discipline. Evidence of the CPD/CEUs should be uploaded by the Learning Consultant to Kelmac Group® website on or before the 31st December each year. Failure by the Learning Consultant to submit their updated CPD/CEU records may affect their Kelmac Group® Learning Consultant's approval status, including the potential for suspension and/or termination.

5.8.6 Changes in Training Approval Body/Standards/Statutory and Regulatory/Contractual Obligations and/or Kelmac Group® Requirements

Where changes affect deliver of a Kelmac Group® product discipline or level, the Kelmac Group® will develop and/or revise any product specific competency requirements that affects or may affect delivery. Where the changes impact product delivery, the Kelmac Group® reserves the right to change the Learning Consultant competency requirements. The Kelmac Group® will proactively with the relevant Learning Consultants to ensure the Learning Consultant meets the latest Scheme Owner Training Certification Body or Kelmac Group® Learning Consultant competence requirements. The Learning Consultant is responsible for fully meeting the latest/current Scheme Owner/Training Certification Body or Kelmac Group® Consultant competence requirements in a timely manner and/or advise the Kelmac Group® in a timely manner if the Learning Consultant is not willing or capable of meeting these competency requirements.

5.8.7 Kelmac Group® Consultant Training and/or Assessments

From time to time the Kelmac Group® may at its discretion mandate all Learning Consultants participate in mandatory Kelmac Group® CPD scheduled training or assessment events. These events are normally planned due to significant events such as major changes in Learning Consultant competency and/or performance standard concerns/changes, changes in product course criteria, and/or changes in Kelmac Group® policy, processes and procedures. The Kelmac Group® will provide as much visibility of these events as practical.

Where a Kelmac Group® event is mandatory, the Learning Consultant who does not participate will automatically be suspended and no work assignment may be allocated to the Learning Consultant until this matter is satisfactorily resolved.

For small changes, the Kelmac Group® will utilize collaborative tools, e.g. MS Teams, Zoom etc, the Kelmac Group® Learning Management System, the Kelmac Group® document management system application, ISO Robot and/or the Scheme Owner application to assess and verify Learning Consultant competence.

5.8.8 Training Approval Body Witnessed Assessment Program

The relevant Training Approval Body witnessed assessment program is designed to enable the Training Approval Body the opportunity to verify conformity with both management system and relevant product discipline criteria.

The Learning Consultant may periodically be subject to witnessed delivery by a Training Certification Body, e.g. CQI-IRCA, HACCP Alliance, IACET, etc. All Learning Consultants are expected to welcome and be supportive of the representation of the Scheme Owner/ Training Certification Body and adhere to the relevant Kelmac Group® procedures.

The Learning Consultant is expected to fully and actively participate in the relevant Scheme Owner/Training Certification Body witnessed assessment program. Refusal to participate in the Scheme Owner/Training Certification Body witnessed assessment program may result in automatic suspension or termination of the Learning Consultant.

5.8.9 Performance Review

The Learning Consultant shall be subject to a continuous assessment performance process. Operations shall monitor and report on Learning Consultant performance on a monthly basis. The Professional Services Team shall formally review the Learner Consultant performance on a bi-annual basis. This review will largely be a document review. The purpose of the review is to evaluate the Consultant's performance, namely:

- Competence
- Performance
- Currency of delivery

- Consultant Development Plan progress

Operations and other interested party input shall be sought during this review. The Data Analyst will be responsible for the supply of Scheme Owner/Training Certification Body and/or Kelmac Group® performance data for the performance review, see section 5.8.10 below.

Within the Kelmac Group® we use the following five levels of performance:

- 1 = truly unacceptable
- 2 = in need of improvement
- 3 = fully successful
- 4 = superior
- 5 = genuinely distinguished

5.8.10 Consultant Lead and Master Grades Competency and Performance Standards

The following are the additional competency and performance standards to be attained by a Lead or Master Consultant

Lead Consultant	Master Consultant
Class deliveries > 4 per year in at least one discipline	Class deliveries > 4 per year in two or more disciplines
Learner Class Success Rate >90%	Learner Class Success Rate >90%
Class Documentation Turn-Around Time [TAT] <10 days	Class Documentation Turn-Around-Time [TAT] <10 days
Learning Consultant documentation completeness - 100%	Learning Consultant documentation completeness - 100%
Class documentation integrity - 100%	Class documentation integrity - 100%
Trainee Learning Consultant Instructor Coaching/Mentoring Support > 80%	Trainee Learning Consultant Coaching/Mentoring Support > 95%
Peer Assessment results - 90%	Peer Assessment Results - 100%
Performance Review Rating - Superior	Performance Review - Truly Distinguished

For a more complete understanding of the above terms, see the glossary section of this document.

5.8.11 Learning Consultant Re-Evaluation of Grade

During the Learning Consultant performance review, the Learning Consultant grade shall be re-evaluated. The Learning Consultant grade may be renewed, upgraded, or downgraded.

The Learning Consultant shall be advised of any changes in the Consultant grade. The Learning Consultant will be invited to respond to the results of the Consultant re-evaluation. Where the results are uncontested, the Learning Consultant will be asked to complete root cause analysis and an Consultant Development Plan root cause analysis and corrective and preventative action. The root cause analysis and Consultant Development Plan and/or root cause analysis and corrective and preventative must be approved by the Professional Services Team. Copies of the root cause analysis and Consultant Development Plan corrective action plan will be forwarded to and maintained by Operations in the Consultant's file.
